About CANEX Metals Inc.

CANEX Metals is a Canadian based exploration company focused on acquiring and advancing high grade gold and silver deposits in stable mining jurisdictions. Company Management has a proven track record of exploration success, with key personnel being involved in discoveries in Mexico, Newfoundland, and British Columbia. The Gold Range Property in Northern Arizona is the Company's main exploration focus and occurs within an area that has seen historic lode and placer gold production but limited modern lode gold exploration. Fieldwork by CANEX has identified multiple gold exploration targets, including the Adit Shear Zone which has been traced for 1 km along strike and has returned chip sample results of 8.47 g/t gold over 5.6 metres, including 28.1 g/t gold over 1 metre. A surface exploration program at Gold Range is currently underway. Please visit our website at www.canexmetals.ca for additional information.
